***Claim Rejections - 35 USC § 102***

1. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

2. Claims 1-6, 11 and 12 are rejected under 35 U.S.C. 102(b) as being anticipated by Becker.

Becker shows a valve body 17, 21; liquid inlet 20; liquid outlet 29; chamber 31; valve seat 30; valve member 33; calibration device 35-47; rotating ring 42; first zero indicator 43; indicia seen in Figure 1; control stop member discussed in column 3, lines 17-27; second zero indicator 47 and 46; piston 25 having first and second sides; air chamber in 21; compression spring 42 in which the stop member is positioned as seen in Figure 1; frictional member 42a which is a ring in the shape of an "O". The method follows from the above discussion and the specification of Becker.

***Allowable Subject Matter***

3. Claims 7-10 are allowed.

***Response to Arguments***

4. Applicant's arguments filed 12/5/2005 have been fully considered but they are not persuasive.

Applicant contends that the Becker reference does not show the stop member that "may be" rotated relative to the reference ring. "May be" does not require the object to actually perform that function.

As no motivation to change the device is needed in order to meet the claimed limitations, the arguments regarding such motivation are moot.

***Conclusion***

5. **THIS ACTION IS MADE FINAL.** Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.
